

IN THE SPECIFICATION

Please amend the specification as follows.

Please replace the Abstract with the Substitute Abstract submitted herewith.

Please replace the paragraph beginning at page 4, line 27 to page 5, line 2, with the following rewritten paragraph:

Figure 2. To design the 1st—3rd generation glycopeptides they were illustrated as amphipathic α -helical wheels (**2** and **9** are shown). The expected membrane position is shown as a line.

Figure 3. Glycopeptide **9** is illustrated as a “perfect” amphipathic helix (N-terminal message segment to the left), with a calculated Connolly surface. Idealized “Class A” and “Class L” amphipathic helices are shown as Edmund diagrams (end view).
